

**FTP Backup PRICE LIST –
2018**
MS-SQL® &
MS SQL Express® Versions

The Backup to our FTP Site is a Hosting Backup ONLY!!! This means that you are using our storage facility to backup the data to (as you would to an external Drive) We do not take responsibility for the backup procedure itself. The client remains responsible to check that the backups have been made and that they are valid. To this end we have built in a FTP Check button. Make sure that the Company Number and dates are valid. You may also restore the backups to another PC (NOT YOUR SERVER AS YOUR MAY OVERRIDE YOUR LIVE DATA), in order to validate your backups
